Class:

C273 CA1 Practical (Day 2 Set B)
For Team 2, 4, 6

Reminder: Academic dishonesty will not be tolerated.

Create a new project named **ca1practical** and a HTML file named **multiply.html**.

Create a form with the following requirements

- The form should be using Bootstrap Form
- It has a text field that lets user enter a number
- It has one dropbox box with value: pink and cyan
- There is a button of primary color
- When the button is clicked, the multiplication table for the number that the user entered will be shown at the bottom of the web page.
- The screen capture below shows 2 samples of what the form will look like.

Compress your project as ca1practical.zip and submit it to **CA1 Practical** File Submission in LEO.

Screen Capture 1

Number

Color:

pink
▼

Calculate

1 x 6 = 6

2 x 6 = 12

3 x 6 = 18

4 x 6 = 24

5 x 6 = 30

6 x 6 = 36

7 x 6 = 42

8 x 6 = 48

9 x 6 = 54

10 x 6 = 60

11 x 6 = 66

Screen Capture 2

Number

Color:

cyan
▼

Calculate

1 x 3 = 3

2 x 3 = 6

3 x 3 = 9

4 x 3 = 12

5 x 3 = 15

6 x 3 = 18

7 x 3 = 21

8 x 3 = 24

9 x 3 = 27

10 x 3 = 30

11 x 3 = 33
